jetpack compose
Android Development
Voice Acting
Android Studio
flutter

Education

Lakshmi Narain College of Technology (LNCT) Bhopal
2021 - Present
B.Tech-Cse (2025 batch)

Experience

Evoked Studios-video editor

2019 - 2019

I worked here as a video editor and that was a great experience I learned many new technical stuffs related to video editing and few related to basic vfx such as using green screen for many creative visual effects.

Evoked Studios-voice over artist

2019 - 2021

I worked here as a voice over artist used to give voices to adults and child characters

Project

firebase medicine app

App with an authentication screen via firebase in flutter using Dart helps you to find information about few medicines that are filled by programmer(me).

driving game Clone

clone created via Unity 3D using free 3D models and coded using C# in which you can drive and smash obstacles in your way was developed in unity so was cross platform game.

Zomato UI Clone

I created this project using Dart in flutter this was a beautiful looking responsive app with some functional buttons.

Achievements

Participated in hackathon by Mlh, Hack2educate and beyondexams and won 1000Rs amazon gift card in that hackathon. participated in Smart India hackathon (SIH) in 2021.
